

**CORROSION:  
PROTECT YOUR ENGINE FROM  
THIS ENEMY WITH OUR NEW  
TITANIUM-ENHANCED OIL.**

**Introducing Guardol ECT<sup>®</sup> with Liquid Titanium:**

Corrosion wants to devour your engine. Fight back with the strength of our Guardol ECT formulation, now with exclusive liquid titanium. Liquid titanium chemically binds to engine parts at a molecular level, providing an extra shield of strength to help reduce wear. This CJ-4 oil also enhances protection against oxidation and other enemies that stalk your engine. **See the oil in action in our interactive 3D engine demo at [lubricants.conocophillips.com/TITANIUM](http://lubricants.conocophillips.com/TITANIUM)**
