

NEW from Creation Research Downunder

From the man the media have labeled "The Crocodile Hunter of Creation" comes a fabulous documentary on God's handiwork.

DARWIN on the rocks

John Mackay
International Director of
Creation Research

Join John Mackay as he and the Creation Research team travel the globe digging up the rock solid evidence of creation and presenting it with great Aussie style and humor. The DVD's message is simple - God's Word can be trusted from cover to cover.

Suitable for high school age and above. Deals with the creation of man, how rocks and fossils formed catastrophically as well as the best evidence against evolution and for creation. Get yours now and share it around with doubters and skeptics.

2009 is a year in which people have and will spend millions celebrating the 200th anniversary of the man who said "I am sorry to have to inform you that I do not believe in the Bible as a divine revelation, and therefore not in Jesus Christ as the son of God" (Charles Darwin, Nov.1880). Get equipped now with the great evidence Darwin was wrong and God's Word is right from the very beginning.
