

Introducing Guardol ECT
with Liquid Titanium

PROTECT YOUR ENGINE FROM THESE ENEMIES WITH OUR NEW TITANIUM-ENHANCED OIL

CORRISION

OXIDATION

WEAR

Oxidation puts a stranglehold on engines. Strike back with the power of our Guardol ECT formulation, now with exclusive liquid titanium. Liquid Titanium chemically bonds to engine parts as a molecular level, providing an extra shield of strength to help reduce wear. This CJ-4 oil also enhances protection against corrosion and other enemies that stalk your engine.

See the oil in action in our interactive 3D engine demo at lubricants.conocophillips/TITANIUM
